DAINYL CUA, E.I.T.

Full Stack Web Developer | Frontend Engineer | Technical Writer

Fort Worth, TX | dainylcua@gmail.com | https://dainylcua.netlify.app/ | LinkedIn.com/dainylcua | GitHub.com/dainylcua

I am a diligent, coachable, and quick-learning full stack developer with experience in multiple technology stacks and coding languages. I seek to join a welcoming company with a healthy and collaborative work environment.

SKILLS

Coding Languages	Frameworks / Libraries	Technologies
JavaScript, TypeScript, Node.js	React, Next.js	Firebase, AWS Cloudfront & S3
HTML5, CSS	Express	Git, GitHub
Python	SolidJS	MongoDB, PostgreSQL, Firestore
GraphQL	Django	Docker, Azure DevOps
Rust	Flask	Heroku, Netlify, Vercel

PROJECTS

Auction Simulator (TypeScript, Next.js, Express, Azure DevOps, Firebase): A gamified introduction to the real-estate auction process built for Xome.com. Users learn the basics of the process in a risk-free environment and build up the confidence to transfer the skills in real-life auctions.

The Devhouse Agency (TypeScript, Next.js, AWS Cloudfront, Sanity Studio): The landing page for The Devhouse Agency, a co-development focused gaming studio located in Dallas, Texas.

Twilio Projects (JavaScript, Rust): Multiple projects built and articles written utilizing JavaScript, Rust, and Twilio's many APIs. Many other articles were reviewed on both a grammatical and technical level for other languages.

EXPERIENCE

Web Developer   Fort Worth, TX (Hybrid)
The Devhouse Agency   10/22 – Present
- **Technical Lead:** Leading multiple web projects and deciding on tech stack usage based on project specifications and client needs and wants.
- **Rapid Development:** Learning necessary tools and concepts to meet tight deadlines and deliver high quality deliverables.

Software Engineering Intern for Technical Content   Remote (Online)
Twilio   05/22 – 08/22
- **Technical Expertise:** Learned multiple of Twilio's many APIs and created six projects using various coding languages, frameworks, and technologies.
- **Technical Writing:** Wrote six technical tutorials and reviewed others' tutorials that aimed to educate, inspire, and inform readers on how to integrate Twilio's products with their own technology.

Software Engineering Intern   Fort Worth, TX (Hybrid)
Daniel JS Digital Solutions   12/21 – 05/22
- **Technical Expertise:** Learned cutting-edge technologies and implemented them into an educational website with dozens of users.
- **Problem Solving:** Added new features onto an existing website while solving previous problems.

EDUCATION

Texas A&M University   College Station, Texas
Bachelor of Science in Chemical Engineering, cum laude
