DAINYL CUA

Full Stack Web Developer | Frontend Engineer | Technical Writer

Fort Worth, TX | dainylcua@gmail.com | https://dainylcua.netlify.app/ | LinkedIn.com/dainylcua | GitHub.com/dainylcua

I am Dainyl Cua (they/she/he), a full-stack web developer that has experience in both a startup and corporate environment. I have approximately two years of experience engineering web solutions, primarily in React and Express, and I currently utilize TypeScript on a daily basis.

EXPERIENCE

Web Developer   Fort Worth, TX (Hybrid)
The Devhouse Agency   10/22 – Present
- Leading multiple web projects and deciding on tech stack usage based on project specifications and client needs and wants.
- Learning necessary tools and concepts to meet tight deadlines and deliver high quality deliverables.
- Creating projects for clients that handle upwards of thousands of users daily.

Software Engineering Intern for Technical Content   Remote (Online)
Twilio   05/22 – 08/22
- Learned multiple of Twilio's many APIs and created six projects using various coding languages, frameworks, and technologies.
- Wrote six technical tutorials and reviewed others' tutorials that aimed to educate, inspire, and inform readers on how to integrate Twilio's products with their own technology.

PROJECTS

Auction Simulator (TypeScript, Next.js, Express, Firebase): A gamified introduction to the real-estate auction process built for Xome.com. Users learn the basics of the process in a risk-free environment and build up the confidence to transfer the skills in real-life auctions.

The Devhouse Agency (TypeScript, Next.js, AWS Cloudfront, Sanity Studio): The landing page for The Devhouse Agency, a co-development focused gaming studio located in Dallas, Texas.

Twilio Projects (JavaScript, Rust): Multiple projects built and articles written utilizing JavaScript, Rust, and Twilio's many APIs. Many other articles were reviewed on both a grammatical and technical level for other languages.

EDUCATION

Texas A&M University   College Station, Texas
Bachelor of Science in Chemical Engineering, cum laude

SKILLS

Coding Languages	Frameworks / Libraries	Technologies
JavaScript, TypeScript, Node.js	React, Next.js	Firebase, AWS Cloudfront & S3
